

Rishi Mediseti

Tampa, FL | rishibhargav.m@gmail.com | [LinkedIn](#) | [Portfolio](#) | [GitHub](#)

SUMMARY

Data Professional with approximately five years of experience bridging Data Engineering, AI, and Analytics. Specialized in architecting scalable ETL pipelines (Ab Initio, GCP), building Agentic AI systems (RAG, LLMs), and driving business insights (Tableau, PowerBI, SQL). Proven track record of migrating enterprise-scale legacy systems and delivering full-stack AI solutions that improve operational efficiency and decision-making.

EDUCATION

University of South Florida, Tampa, FL

Aug 2024 – May 2026

Master of Science in Artificial Intelligence and Business Analytics

GPA: 4.0/4.0

Certifications: Snowflake SnowPro Associate (2025) | Google Certified Associate Cloud Engineer (2024)

SKILLS

Business Analysis: Requirements documentation, process modeling, workflow analysis, user story documentation

Data Engineering: Ab Initio, ETL/ELT, Snowflake, Google Cloud Platform (GCP), Amazon Web Services (AWS), Microsoft Azure, SSIS, SSRS

Machine Learning & AI: Scikit-learn, PyTorch, TensorFlow, RAG, LangChain, Transformers, Computer Vision, Natural Language Processing (NLP), Vector DBs

Data Analysis & Visualization: Tableau, Power BI, Excel, R Studio, Pandas, NumPy, Statistical Modeling

Programming & Databases: Python, SQL, Linux/UNIX, C#, Django, HTML/CSS/JS, Oracle, PostgreSQL, MongoDB

Developer Tools: Docker, Jenkins, Git, Control M, JIRA

PROFESSIONAL EXPERIENCE

Graduate Research Assistant – University of South Florida, Tampa, FL

Jan 2025 – May 2026

- Engineered a research-based recipe recommender system by integrating a rule-based engine with a RAG-powered Assistant (ChromaDB/OpenAI) to deliver personalized, healthy meal suggestions to users
- Developed Project CRAFT, a Django-based Azure application utilizing Canvas LMS REST APIs, to automate student engagement and operational workflows, resulting in a **70%** automation impact
- Instructed **700+** students on Tableau, MS Office, and advanced analytics by leading targeted training sessions to enhance technical proficiency and improve on-time project submission rates

Senior Systems Engineer (Data Engineer) – Infosys/Virgin Media, Hyderabad, India

Jan 2021 – May 2024

- Designed Ab Initio pipelines managing **40M+** records to establish a robust foundation for downstream BI and analytics, accelerating reporting speed by **60%**
- Migrated **50M+** records to Google Cloud Platform (GCP) with **100%** data integrity, utilizing advanced indexing and query tuning to optimize system performance and boost retrieval efficiency by **20%**
- Orchestrated **\$13M** in GDPR compliance initiatives by aligning legal and technical teams to implement data masking and lineage controls, resulting in fortified asset security that safeguarded **~\$45M** in financial risk
- Modeled enterprise data structures covering **98%** of the UK population to automate weekly pipeline refreshes, significantly optimizing critical stakeholder decision-making workflows

PROJECT EXPERIENCE

Aug 2024 – May 2026

- USF Concierge Multi-Agent RAG System (GenAI)** - Architected a multi-agent AI system using Supabase pgvector and row-level security to streamline onboarding via secure, human-verified Gmail and Calendar actions
- Skeleton Action Recognition (Computer Vision, PyTorch)**- Engineered a 3D skeleton gesture recognition system for human-robot interaction, benchmarking ST-GCN, TCN, and Transformers to achieve **78%** accuracy
- Emissions vs. Asthma Public Health Analysis (Tableau, Statistical Analysis)** - Analyzed EPA and CDC public health datasets using rigorous statistical normalization to build interactive Tableau density maps, identifying key correlations between emissions and state-level asthma disparities
- NYC Motor Vehicle Collisions Analytics (.NET)** - Developed a scalable ASP.NET Core MVC application on Azure using live Data.gov APIs to provide secure, real-time public access to collision metrics

AWARDS

- Received Infosys' INSTA Award **4 times** for consistent delivery excellence and exceeding expectations
